

Why All Water Is Not Pure

Falling rain water is soft and pure—perfect for drinking—but it washes the air and from the earth it absorbs carbonates—sulphates—chlorides of lime—magnesia and other chemicals—according to the nature of the soil, as well as various organic matter.

These are all taken out of "AEROX" distilled and aerated WATER—they are not good for you—that's why we use only "AEROX" distilled water and the purest extracts in our delicious soda waters.

Our bottling plant is the newest and most up-to-date in the Territory. No bottle is refilled in our plant without first being thoroughly sterilized and rendered absolutely germless.

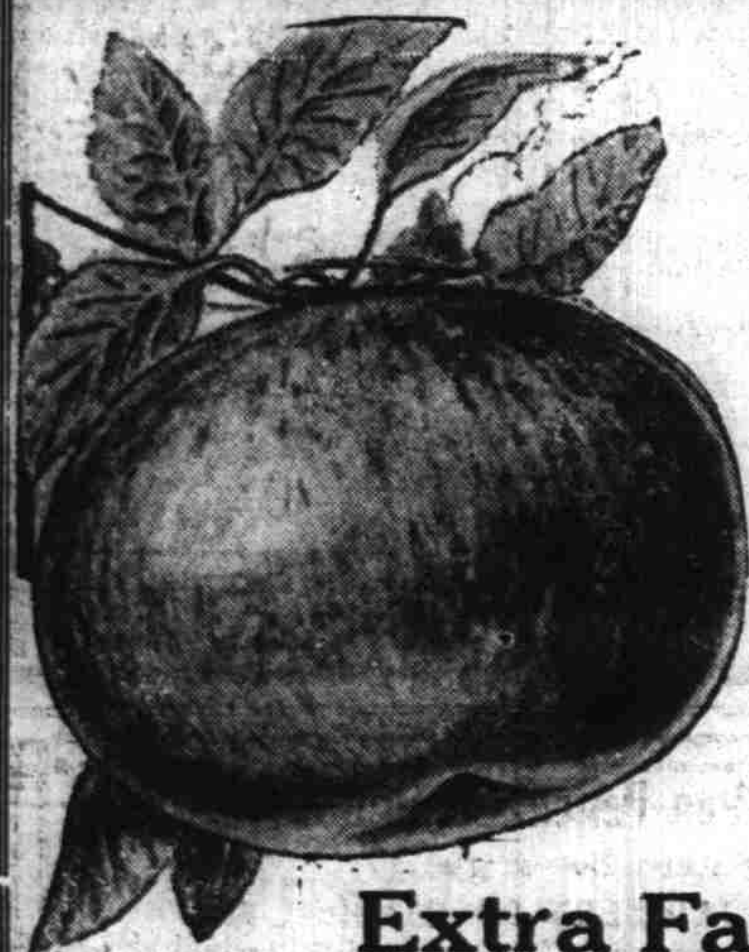

Every time! Demand—

FORMER EDITOR FROM ARIZONA DIES MONDAY

John W. Dorrington, Long Time Publisher Arizona Sentinel, Succumbs to Illness

After a prolonged illness which has been almost continuous since he arrived in Honolulu July 21 for his first visit here, John W. Dorrington, an oldtime newspaper man of Arizona, passed away at the Beretania sanitarium Monday night.

Dorrington's sister, Mrs. Anna Reavis, came to Honolulu with him, taking her residence at Fort Slaters with her grandniece, Mrs. Henry C. K. Muhlenberg, wife of Lieut. Muhlenberg. The body of Dorrington has been taken to Williams' undertaking parlors and will be forwarded to Falls City, Neb., in the Sierra, September 26, accompanied by Mrs. Reavis and Lieut. Muhlenberg.

John W. Dorrington was a bachelor, 72 years of age, born in Whiteboro, New York, and is survived by one brother and two sisters, all of Falls City. In 1871 he went with his parents from Nebraska to Yuma, Ariz., making his home there ever since.

A Civil War veteran of the 1st Nebraska Volunteers, a 3rd degree Mason and for years publisher of the Arizona Sentinel, Dorrington was one of the best known and most respected residents of the Southwest and one of the earliest and best known figures in journalism along the border. He saw his adopted home change from having merely the reputation of being the hottest place in the United States to the center of a rich agricultural section that rivals the Nile as a cotton producer, under the famous Yuma syphon project.

SUMMER RESORT TO BE PLAYED UP BY NEWMAN

Noted Lecturer Says He Will Impress This Fact in Talks on Hawaii This Year

"Hawaii is a summer resort as well as a winter playground," said E. M. Newman, noted lecturer in a letter to A. P. Taylor of the Hawaii Promotion Committee. The well known lecturer, who traveled through Hawaii last summer, states that the pictures, both motion and still, have turned out well.

He writes that he has some sensational night pictures of the volcano, and some thrilling pictures of surf riding. Newman while in Chicago called on the local passenger agent of the Northern Pacific and asked why steamer service was not the same in summer as in winter to Hawaii. "I know that Hawaii has ideal summer weather, and I shall be sure to bring out this point forcibly in my lectures," he concluded.

M'KINLEY CONFIDENT DESPITE LOSS OF MANY FOOTBALL VETERANS

Lester Marks and Bill Rosa, alumni of McKinley high school, talked to the boys of the school yesterday on getting in the right amount of work for football, and as a result about 30 students came out for the gridiron game. The prospects have not been bright to date, but the McKinleyites are banking on lining up a strong team.

With Clifford Melim, Harry Melim, Fred Carter, Sam Carter, Andrade, George Hawkins and Joe Stickney gone, the high school will have to recruit an entire backfield and end positions. Capt. Thompson is confident that the high school will be able to line up a team which will make a hard fight for honors.

TRIBUTE TO A WOMAN

When the Lusitania went down to its watery grave, taking one of our prominent writers and his wife, leading papers published a remarkable literary tribute previously paid by the husband to the wife. This was because she had been such a helpmate to him in carrying out his idea's. Thousands of women have the ambition to be such helpmates to their husbands, but lack the necessary health. Every such woman should remember that Lydia E. Pinkham's Vegetable Compound is the one remedy which will restore health and strength, the unrivaled medicine for woman's ailments.—Adv.

BUILDING PERMITS

Lee Chu, to build cottage for dwelling at Kwa site from Kalia bridge. Lee Chu, builder. Cost, \$600.

An increase in postal rates to take effect Sept. 1 was announced at Mexico City.

Sore Eyes, Granulated Eyelids, Eyes inflamed by exposure to sun, dust and wind quickly relieved by Murine Eye Remedy. Just try it. A few drops in the eyes, just before bedtime, for best results. By mail, 50c. For bottles, the Eye Remedy, see Murine Eye Remedy Co., Chicago.

FINDS TWENTY DAYS TOO SHORT TO SEE HAWAII

"One who can afford to come to Hawaii and does not, is just hope; a person who does visit here and fails to see the volcano is 'fuzzy,' and the thousands of nature and wonder lovers who are unable to cross the Pacific to Honolulu deserve the sympathy of all."

Mr. and Mrs. S. B. Folger—(not the spice folgers, just cousins)—are in Honolulu, regretting their departure on the Matsonia Wednesday. Folger represents the Bancroft-Whitney Company of San Francisco, one of the largest law book concerns in the United States, and has some original things to say, all in favor of Hawaii. The foregoing are a few.

"I came over here to rest," he said, "and I haven't had a minute's peace. It has been something new every minute. I might have known better, thinking a 20-day trip to Hawaii, including going and coming, would be long enough. We all live to learn and when I make another trip I'll come prepared to stay. However, one has a good rest on the water and a person can get a pretty good birdseye view of Honolulu in a few days."

Folger says he has stepped about a bit but he never saw anything that "got his goat," to use his very words, as Kilauea did. He plans to spend a week at Hilo next time.

"And how anyone can come to Honolulu and go back again without seeing the volcano certainly gets me," he declares. "Why, it's like going through Yellowstone park without seeing the geysers or through Glacier park without seeing the glaciers. It is almost unbelievable that anyone could come so near and pass up such a wonderful sight, but I know it has been done."

REGISTRATION WILL CLOSE ON SEPTEMBER 26

That registration closes Tuesday, September 26, as constantly reported by the Star-Bulletin, and not next Saturday, September 23, was announced today by County Clerk David Kalanokalani.

"There seems to be a misunderstanding in certain quarters concerning when the registration closes," said Kalanokalani today, "but as the law specifically states that it shall close 16 days before election, it must of necessity fail on September 26 as the primaries this year come on October 7."

Kalanokalani also said that the county clerk's office will be open until midnight Monday and Tuesday of next week and possibly Thursday, Friday and Saturday of this week to accommodate the voters who find it impossible to register during the day.
